

Discover the Difference®

# 5030 SEQUOIA GTX®

## KEY FEATURES:

Versatile boot for a variety of terrain and conditions, perfect for Forestry Service, park maintenance, and other Outdoor work applications where extended hiking is involved. Uppers made of Hydrobloc® full grain soft tumbled leathers are lined with GORE-TEX® Performance Comfort membranes for guaranteed waterproof breathability. Side locking hook allows customization of fit between top and bottom lace zones. Vibram® SCHWARZWALD outsoles grant excellent grip, flexibility, and comfort.

- MADE IN** ITALY  
*This item has been hand crafted in ITALY by our expert workers to ensure a product of high quality and value.*
- UPPER** HYDROBLOC® FULL GRAIN TUMBLED LEATHER  
*Specific leather's treatment process which gives, at the end of the procedure, this typical knurling leather upper.*
- LEATHER THICKNESS** 2,3/2,5 mm
- HARDWARE** H.R.T. "HIGH RESISTANCE TREATMENT"  
*All our hardware is designed to allow a smooth passage of the laces. D-rings and hooks receive the high resistance treatment to ensure maximum resistance to corrosion.*
- LINING** GORE-TEX® - PERFORMANCE COMFORT  
*An extremely waterproof and breathable micro porous membrane which can be used to make a lining in outdoor footwear. Its structural characteristics allow moisture from the foot to pass through but keep water out. GORE-TEX® - PERFORMANCE COMFORT is ideal for a wide range of conditions and outdoor activities.*
- FOOTBED** Z-COMFORT FIT  
*Anatomically shaped removable footbed. It has a quick drying top hygienic polyester fabric layer, to wick away moisture and dry quickly, a latex foam and a bottom cushioning layer in expanded close cell PE. Good overall comfort and cushioning.*
- INSOLE/SHANK** ZAMBERLAN MODULAR FLEX GT  
*An exclusive Zamberlan® polypropylene midsole, specially designed for GORE-TEX® lined boots, developed to achieve great degrees of lightness, torsional rigidity and flexibility where needed. It features special grooves under the ball of the foot to allow for a natural movement and a backbone reinforcement in the back part for the maximum torsional rigidity.*
- TOE AND HEEL** THERMOPLASTIC  
*The toe puff and heel counter are made from an extruded thermoplastic material which is pre-shaped on special machine. They provide excellent protection for the foot and help maintain a good shape in boot even after extended use.*
- SOLE PACKAGE** VIBRAM® SCHWARZWALD  
*Vibram® Schwarzwald is a rubber outsole for increased shock absorption, comfort and flexibility. The innovative tread pattern helps self-cleaning and, with deep lugs, it provides a great traction on every type of terrain and in harsh conditions.*
- CONSTRUCTION** GTX BOOTEE  
*The GORE-TEX® membrane is thermo-sealed into a bootee that is then fixed to the boot upper. When the boot is laced, the bootee is fixed to the midsole with a small quantity of glue.*
- WEIGHT (GRAMS)** 720  
*(Half pair size Euro 42 or US 8 Mns - size Euro 39 or US 7 Wms)*
- SIZES** EU 36-50 (incl. half sizes)
- CARE** HYDROBLOC® PROOFING CREAM  
*We recommend regular treatment of the boots with the Hydrobloc® Proofing Cream, to maintain and enhance the performance of full grain leathers.*
- FIT** ZBPK - Zamberlan® Backpacking Last  
*Performance Fit. Slightly lower instep, wrapped foot flex point, wrapped toe area. Tighter heel lock area.*
